The DPDP Challenge

The Problem

Companies must fulfill data subjects' rights within statutory deadlines or face fines. But how can you give control over data if you don't know where it is or which data belongs to which individual?

The Reality

Personal data is scattered across multiple systems, making it nearly impossible to detect and identify at data subjects' request - resulting in failed DPDP compliance demonstrations.

Two Paths to DPDP

Defensive Strategy

Bare minimum approach: basic privacy policies, contracts, and documentation. Reactive and risk-prone.

Offensive Strategy

Proactive control of personal data, respectful usage to create insights and new business models. Competitive advantage through trust.

There is no such thing as minimum DPDP compliance. Organizations are either compliant with DPDP principles or they are not.

The Stakes Are High

Compliance Required
Either fully compliant or at risk of lawsuits and fines

Trust Essential
Customer trust is the next competitive battleground

Rights Fulfillment
Timely response or risk reputational damage

Introducing Data Privacy Manager MDM Edition

A comprehensive solution created in collaboration with Informatica Corporation, combining Data Privacy Manager with Information Master Data Management Multidomain platform.

Central Control Center

Single business user interface for data privacy experts and DPO operations

Process Automation

Tool for DPDP process automation and orchestration without storing personal data

Golden Record

Maintains accurate, up-to-date personal information with searchable compliance monitoring

Privacy by Design and Default

- 1 **Informatica MDM Hub**
Maintains the "golden record" of data subjects
- 2 **Searchable Interface**
DPO monitors DPDP compliance in real-time
- 3 **Built-In Protection**
Data protection embedded from the ground up

Expert Guidance for Your Compliance Journey

GRG Cube provides comprehensive support for navigating India's

DPDP Act, from initial assessment through implementation and ongoing monitoring.

Core Capabilities

1

Records of Processing Activities

Comprehensive documentation of all data processing operations and purposes

2

Data Retention Policies

Automated execution of retention schedules and deletion protocols

3

Data Subject Rights

Timely fulfillment of access, erasure, and portability requests

4

Breach Risk Minimization

Proactive identification and mitigation of data breach vulnerabilities

Know Your Data

- Exactly where personal data is stored and processed
- Who is responsible for each data element
- Purpose of every data processing activity
- Which data belongs to the same data subject

This level of visibility demands functional master data management - the foundation of our integrated solution.

Beyond Minimum Compliance

Foundation

Meet all DPDP requirements with documented processes

Business Value

Become more data-driven and customer-centric

Trust Building

Use personal data respectfully to create new insights

Competitive Edge

Transform compliance into strategic advantage

Products – Integrated Platform

All In One Solution

Compliance/Security

TPRM

Data Privacy

Internal Audit

IT Ops/Budgeting

Seamless Integration, Unmatched Efficiency

- 350+ Frameworks
- Algorithm-based mapping
- One-click delta visibility and task creation
- Global and ready to go

Real Time Review & Response AI

- Real-time review and unmatched speed
- Dashboard provides real-time visibility
- No more alert fatigue

107 Privacy Laws Ready to Go

- 107 Laws Ready Info Security and Consent/Rights Mgt out of box
- Ready reporting – DPIA

Ease of Use and Saving on Time

- Integrates with other Modules
- Able to use test results and validations from other modules

Event, Incident, Breach Mgt , Change Mgt - out of box

- Ease in integration with IT Ops
- Only tool with ready out of the box Breach, Findings Mgt,...
